

# A Natural & Highly Effective Approach To Cleanse The Liver, Gallbladder & Colon

- Detox Health Talk - Dr. Haresh Kumar -

*The liver and colon function as elimination organs, ridding the body of toxins and waste. Toxins develop from both dietary and environmental sources which are frequently absorbed through the digestive system. Sign of toxins include fatigue, constipation, low immunity, hormone imbalance, nausea, skin problems and poor circulation. The body has built-in systems for eliminating toxins but may become overloaded. A healthy diet will help to detoxify the body effectively.*
